Professional Summary

AI/ML Software Engineer with experience building AI-powered applications, full-stack platforms, and automation tools for international clients. Skilled in Python, JavaScript, React, Node.js, PostgreSQL, FastAPI, LLMs, and Agentic AI workflows.

Work Experience

AI/ML Software Engineer — **BlueSprings Innovations Private Limited**, Hyderabad *Feb 2026 – Present*

- Built AI features for a customer support platform using **Temporal** workflows, cutting manual work by **80%**.
- Built human-in-the-loop AI workflows with **Temporal** and **LangGraph**, reaching **99+%** reliability.
- Built AI document processing pipelines using **OCR** and **Vision Language Models**, cutting processing time by **45%**.
- Optimized **RAG** pipelines (hybrid search, reranking), cutting reranking time by **99% (137s → 1–2s)** and total pipeline time by **90% (290s → 24–25s)**.
- Built async workflows for case assignment and webhooks with **Temporal**, cutting failed runs by **75%**.
- Built role-based access control, JWT authentication, and audit logging for security and compliance.
- Helped build an enterprise IoT platform used at Cyber Towers, Hyderabad.
- Worked in Agile teams: sprint planning, code reviews, and releases.
- Mentored and onboarded new interns.

Technologies: Python, TypeScript, React.js, FastAPI, PostgreSQL, Temporal, LangGraph, VLM, OCR, JWT, REST APIs, SSE, Git

Frontend & Backend Intern — **TheQA**, Kolkata *Mar 2024 – Aug 2024*

- Built frontend and backend features using React.js, Node.js, Express.js, and MongoDB.
- Improved app performance through lazy loading and better code structure.
- Worked with senior developers in Agile sprints, code reviews, and debugging.
- Built reusable UI components and connected REST APIs.

Projects

Nexora – AI SaaS Platform *React.js — Node.js — PostgreSQL — Clerk — Google Gemini*

GitHub — Live Demo

- Built a full-stack AI SaaS platform using Google Gemini for content generation, image processing, and resume analysis.
- Added secure login, subscriptions, and backend APIs with Clerk, Node.js, and PostgreSQL.
- Built responsive React interfaces with reusable components.

InterviewPrep – AI Interview Preparation Platform *React.js — Node.js — MongoDB — Gemini API*

GitHub — Live Demo

- Built an AI interview prep platform with technical practice, MCQs, and subjective evaluation.
- Used Google Gemini Flash to generate questions, evaluate answers, and give feedback.
- Built dashboards to show topic-wise performance and accuracy trends.
- Added JWT authentication, secure REST APIs, and MongoDB indexing.

Book Recommendation System *Python — Streamlit — Scikit-learn — Pandas*

GitHub — Live Demo

- Built a machine learning book recommendation system using collaborative filtering.
- Used cosine similarity for fast, low-latency recommendations.
- Built an interactive Streamlit app for browsing recommended books.
- Processed large book and rating datasets with Pandas and NumPy.
- Precomputed similarity matrices to speed up the app.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Redux, Tailwind CSS, Responsive Design

Backend: FastAPI, Node.js, Express.js, REST APIs, JWT

AI / ML: Agentic AI, LLMs, VLMs, LangGraph, OCR, Prompt Engineering, Gemini API, OpenAI API, Scikit-learn

Databases: PostgreSQL, MongoDB, SQLite

Workflow: Temporal, LangGraph, Webhooks

Tools: Git, GitHub, Docker, Linux, Postman, Vercel, Render

Core Concepts: Data Structures & Algorithms, System Design, OOP, API Design, Microservices, Agile/Scrum

Education

Swami Vivekananda University, Kolkata

B.Tech in Computer Science and Engineering

Aug 2021 – May 2025

CGPA: **7.8/10**

NxtWave CCBP 4.0

Advanced Full Stack and Python Developer Program

Jan 2022 – Present

Professional Achievements

- Technical lead who mentors new interns on architecture and best practices.
- **466+ GitHub contributions** across enterprise repositories.
- Built enterprise AI solutions using LLMs, VLMs, OCR, and Agentic AI for international clients.

Certifications

- Career Essentials in Generative AI — Microsoft & LinkedIn Learning
- Machine Learning Foundations — LinkedIn Learning
- AI Foundations: Thinking Machines — LinkedIn Learning
- Dynamic Web Applications — NxtWave CCBP 4.0
